

**Paine's
Celery
Compound**

Makes People Well.

The one true specific for diseases arising from a debilitated nervous system is Paine's celery compound, which is generally prescribed by physicians. It is probably the most remarkable remedy for the diseases of the nervous system that has ever been introduced into this country. It has been prescribed by the most eminent physicians of the world, and the college first prescribed what is now known as the one true specific for Paine's celery compound, nervous diseases and kidney troubles. Paine's celery compound has succeeded again and again where everything else has failed.

**One More Day to Get Names
on the Lists—Other
News.**

The Duluth, Missabe & Northern Railroad company, which since the closing down of the open pit mines has been shipping ore over its lines, has laid off many of its summer train crews, the result being that the usual fall shipments from Proctoront will set in and the floating population of the village will be greatly reduced. The company will, however, employ a larger winter force than usual, both in the mines and on the road, a number of extra train crews being required to take care of the long haul that has been contracted.

Many improvements have been made at Proctoront during the year, and the resident population has materially increased.

ONE MORE DAY TO REGISTER. Registration remains for voters to register, and the polls will be open from 6 o'clock in the morning until 9 o'clock in the evening Saturday, and those who are entitled to vote in the Seventh Ward have neglected thus far to have their names on the list, and the local committee are busily engaged in looking them up and getting them to their duty. Every voter should register Saturday if he has not already done so.

VILLAGE HALL MOVED. The Proctoront village hall has moved to its new location and the work of remodeling the interior has been taken care of.

The village hall is much more convenient for everybody than the old one, and in case of fire in the village apparatus is more accessible.

The new fire company has been thoroughly organized, and with a little more work will be capable of every efficient.

FROM COPPERDOM.

The Centennial Mining Company Secures an Excellent Mill Site.

Houghton—it is but a few days ago since we brought you the news of a land located in the northern corner of section 18 from the Grand Trunk, thereby giving it the advantage of striking the new shaft on the hill. The hill is high, and the expensive and disadvantageous vertical shaft that otherwise would have been necessary to reach the mine would be avoided. The purchase of the mine and a quarter section of land was made by the Gregory estate, situated directly opposite the village of Lake Linden. The mine is located in the copper mines, and in using the property the company is certain to be on the ground.

After many unforeseen incidents, the company has commenced treating rock Tuesday morning.

The surface work at the Acreland continues to be pushed despite the miserable weather. The company has engaged in the fifty new dwellings being erected of the company was occupied and henceforth will be used for miners and their families or occupancy daily. The coal trestle at the head of the hill is completed, and the railroad from the hill to the mine will commence at once. The new shaft has been lowered to the depth of 1,000 feet, and the iron shafting is being put in proper shape. No other work is being done, and the three compartment shaft. The foundation of the new general store building is completed, and the company has been encountered, owing to the inability to get the lumber on the ground.

The Isle Royale Mining company is ready to begin work, and the company's treasury and is expected that the \$100,000 will still remain there after the new shaft is completed. The mine is open for production. The mine is in a very good showing as ground is being opened up, and the company has some very good bunches of copper ore in stock. Stockholders talk of \$100,000 or \$150,000 for the stock, which now is quoted around \$22. The stock is at \$22. The stock is at \$20,000 shares of our value, or \$20 per share, marked \$50 paid in of which \$20 is paid in of the stock, and \$10 is in treasury, not \$20,000 as stated yesterday.

MARINE DISASTER

The Steamer H. A. Tuttle Sunk and Will Be a Total Wreck.

ABERDEEN IS FOUND

Other Vessels Wrecked or Missing in a Lake Michigan Storm.

(Latter Marine News on Page 6.)

Michigan City, Ind., Oct. 27.—The Steamer H. A. Tuttle, grain laden from Chicago, is sunk in the mouth of the river. The crew are safe. The steamer is breaking over her, and she is broken in two. The crew was taken off by the life savers after twenty hours of extreme peril. The steamer Aberdeen, consort of the Tuttle, was also missing in the same storm. She was last seen was at 10 p.m. on Tuesday. Her whereabouts is unknown. The Tuttle loaded grain at Chicago, and all day Monday lay in port. She got away Monday afternoon at 1 o'clock, with the Aberdeen, which had been detained when Lake Michigan was rough. At midnight last night both vessels were in The steamer was forced to let the schooner adrift. The Tuttle is owned by the Nickel Plate Transit company of Chicago. Her cargo was \$25,000. Her crew consisted of 12 men, and was insured for \$25,000. The steamer Aberdeen's cargo was worth \$40,000, and her crew of 12 men, was insured for \$25,000. The steamer Aberdeen will have to remain in Uncle Sam's care until the expiration of the time.

Grand Haven, Mich., Oct. 27.—The steamer Aberdeen was brought into port today, having been wrecked on the rocks. The crew suffered terribly from exposure and cold.

STORM ON LAKE ERIE.

Cleveland, Oct. 27.—A long and disastrous night was spent by the crew of the steamer brought by yesterday's storm. Fortunately there was no loss of life reported. A cargo of coal was lost.

Williamsburg, Oct. 27.—The steamer to be shipped to the yacht Clevelander was unhooked inside the Cleveland breakwater. The captain and crew were not certain they will be permitted to proceed to their destination for two and half years and are likely to be bound to proceed by the waves. The vessel was

also headed with the name Republican. The principle is laid down that a respecting withdrawal from the meeting and nominating a candidate is entitled to have the right to nominate a candidate on the ballot, although it is intimated that a more refractory minority might not be entitled to such privilege.

John Williams, who have been home on a furlough the past three weeks or so, will be home again on Saturday. They are on the ore carrier Samuel Mitchell. They have a good pay—their old places are not certain they will be permitted to proceed to their destination for two and half years and are likely to be bound to proceed by the waves. The vessel was

also headed with the name Republican. Philippines Monday.

SPANIARDS PLIANT

Since They Have Learned
That America Will Have
No Delay.

NO GROUND FOR IT.

England Will Not Declare a Protec-
torate Over Egypt.

London, Oct. 28.—The American peace commissioners, at their sessions today, will draw up a memorandum on the subject of the Philippine islands, which, it is believed, they will place before the Spanish commissioners at the joint session which is to take place on Monday next.

Washington, Oct. 28.—The president was enabled to lay before the cabinet today, were continuing efforts from Paris regarding the progress of the peace negotiations. The administration now fully believes that the negotiations will be concluded much sooner than was expected from the outlook a few days ago.

It can be stated authoritatively that the American commissioners have already begun the discussion of the Philippine question, and further, that it will be taken up next week.

Since the American commissioners mean exactly what they say, and that their position is that of the United States is in reality an ultimatum, the uselessness of prolonged debate, it is said, has become apparent to the Spaniards. It is not believed that the Philippine discuss will be less protracted than supposed some days ago. The recent action of the United States government in indicating that the negotiations were to proceed much more rapidly has had its effect upon the Spanish commissioners, and they are not likely to delay any longer.

The United States has an assumed power to demand the removal of all Spanish troops from the Philippines, and whatever government is established in Cuba will be expected to see that the Spanish troops are removed in good faith, and that they are charged up on Spain. Our government, it is said, in official circles, would look upon any attempt at evading the responsibility of the Spanish government as a violation of the principles of justice and dishonesty, and whatever government is established in Cuba will be expected to see that the Spanish troops are removed in good faith, and that they are charged up on Spain.

The two countries have been at war for a day of national thanksgiving, to come to an armistice, and to give thanks to Almighty God for all the blessings of the year, and the prosperity of the soul, for the continued prosperity of the people, for the devotion of the American workmen, for the glory of our victory and the many sacrifices made in the cause of our country. The two countries have been at war for a day of national thanksgiving, to come to an armistice, and to give thanks to Almighty God for all the blessings of the year, and the prosperity of the soul, for the continued prosperity of the people, for the devotion of the American workmen, for the glory of our victory and the many sacrifices made in the cause of our country.

I do, therefore, invite all my fellow citizens to a day of thanksgiving, which may be at sea or sojourning in foreign lands, to be aware and observe Thursday, the 29th instant, a day of national thanksgiving, to come to an armistice, and to give thanks to Almighty God for all the blessings of the year, and the prosperity of the soul, for the continued prosperity of the people, for the devotion of the American workmen, for the glory of our victory and the many sacrifices made in the cause of our country.

Spanish Officers Cease to Carry
Away Immovables.

Washington, Oct. 28.—Information has been received by the government that the Spanish officers have ceased to break up and carry away things that are regarded as immovable property in Cuba, and that the Spanish officers are to have this will seek enlistment in the ranks of the regular army. It is also estimated that there are about 60,000 Cuban insurgents who will gladly accept service in the American army.

AN ATTEMPT HAS BEEN MADE TO CREATE AN ARMISTICE IN A SILENT REFUSAL OF THE AMERICAN GOVERNMENT TO PAY THE SALARY OF THE SPANISH OFFICERS.

New York, Oct. 28.—A dispatch from Washington says: Two more men-of-war will probably follow the auxiliary cruiser Buffalo to the Asiatic squadron. Orders have already been given to the gunboat Helena to prepare for her long voyage through the Suez canal to the far East.

Real Admiral Dewey has impressed upon the Spanish government the importance of having a large number of light-draught gunboats among the Philippine Islands. The Yorktown, it is understood, will soon be placed in commission on the Pacific coast and will start for Manila.

CUSTOMS AGREEMENT.

Generals Otis and Rios Reach an
Understanding.

Manila, Oct. 28.—Col. Morales, representing Gen. Otis, the Spanish commander, concluded a commercial agreement with Gen. Rios yesterday.

The Manila customs authorities are authorized to import Spanish or American ships to Manila, Cebu, or Zamboanga. For the Philippines, Taal, Cebu, Cagayan, Manila, and Santiago they will require Spanish captains, and a guarantee of Spanish shipping. Davao, Davao, Camiguin, and Cagayan they will require the sanction of Gen. Rios. Calling at other Visayan ports is forbidden. Gen. Rios reserves the right of search in all cases, and he can prohibit crews from landing.

THE WEATHER.

Duluth, Minn., Oct. 28.—Local forecast for tonight: Four hours from 7 p. m. (Continued to 10 p. m.) Fair to brisk south and west. Generally fair weather tonight and Saturday. Frost to brisk south and west. Local data for yesterday: Four hours ended at 7 a. m. Maximum temperature, 35 degrees; minimum temperature, 23 degrees; rainfall, .06 inch. RICHARDSON, Local Forecasts Official.

Chicago, Oct. 28.—Forecast until 4 p. m. Saturday: The upper lakes—frosts, south winds; showers over Superior and extreme north; fair over Lake Michigan and Huron. Wisconsin—Fair tonight and Saturday, except possibly showers in extreme north. Windy, with gales from the north to brisk southerly winds. Minnesota—Partly cloudy tonight and Saturday, with gales by Saturday night, south to west winds.

Tomorrow will be last day of registration. If you do not register then you cannot vote on Nov. 8.

REGISTER TOMORROW.

Tomorrow, Saturday, Oct. 29, is the last opportunity for voters in the city of Duluth to register. A failure to be recorded on the registration books when they close tomorrow night will result in disfranchisement so far as the approaching election is concerned. Those who do not register cannot vote on Nov. 8.

The vote already registered is light in comparison with the registration two years ago, and while there are some causes which prevent a registration equal to that of 1896, there are hundreds who are qualified to register and have failed to do so. They should not neglect this important duty tomorrow.

COMPARE THEIR RECORDS.

No resident of the Sixth district can forget the splendid record made by Mr. Towne during the one term he occupied a seat in congress. In that one term he accomplished more for Duluth and for the whole district than was done by all the congressmen from Northern Minnesota who preceded him. It was generally agreed that no man ever went to congress who obtained so much important legislation for his district during his first term.

Mr. Towne secured the legislation which placed the Duluth harbor under the continuous contract system which resulted in an expenditure of \$4,000,000 for the improvement of Duluth-Superior harbor.

He secured \$150,000 for the survey of a canal route from the great lakes to the Atlantic which will some day make Duluth a seaport.

He secured the extension of the hydrographic service of the navy department on the lakes, establishing offices at Buffalo, Sault Ste. Marie and Duluth, of great advantage to commerce and navigation.

He secured the reduction of the Chippewa Indian commission from three members to one, in the interest of economy and business administration.

He procured, in connection with Senators Nelson and Mr. Eddy, the opening of the Red Lake Indian reservation.

He secured congressional authority to the interior department to regulate and control the sale of "dead and down timber" on the Indian reservations.

He secured the passage of an act enabling several hundred settlers on Northern Pacific indemnity lands, who had lost their homesteads by fault or negligence of the interior department, to select new lands in the public domain anywhere in the United States, and to receive full credit for settlement thereon when they had resided six months on their original entries.

He supported the creation of the Phillips labor commission.

He assisted in passing through the house in the Fifty-fourth congress the "free homes" bill, which failed to pass the house last session in spite of the support of Judge Morris, whose man of navigation it provoked opposition and aroused the active antagonism of the leaders of his own party. And many other less conspicuous but equally serviceable things in behalf of his constituents.

And what has Page Morris accomplished since he became a member of congress? Can anyone point to one thing he did for the benefit of Duluth or the district at large? I do not, therefore, for the best interests of Duluth that Mr. Towne should be again sent to represent us at Washington?

BASED ON MISINFORMATION.
On information furnished by two members of the "business men's committee" organized to assist the Morris congressional committee, The Herald stated that at the first meeting of the committee a resolution was presented proposing to make an appropriation for the News Tribune's services for the Republican ticket during the present campaign, and that it was promptly thrown out.

Inasmuch as the News Tribune has positively denied the statement, and even proposed to undertake the difficult task of getting a certified check for \$100 to back up its denial, The Herald today made further inquiry. It has found that one of its original informants was not present at the meeting alluded to, and that the other evidently thought he was playing a smart joke on The Herald by giving false information on the subject. Consequently The Herald cheerfully withdraws the statement, being desirous of treating every person fairly and not misrepresenting anyone.

It feels, however, that it must be pardoned for believing what it was told regarding the News Tribune, in view of the past record of that sheet.

Tomorrow will be last day of registration. If you do not register then you cannot vote on Nov. 8.

Holton Gould must be having some effect on his brother George. The latter is establishing Y. M. C. A. headquarters at all the towns and cities along the Missouri Pacific and Iron Mountain systems where railroads and ships are maintained and the road contributes to their support.

The Illinois legislature has decided that the Chicago city council can insist on compensation for street railroads franchises. The decision will be far-reaching in effect, and will bring to many cities that have had heretofore been denied by semi-public corporations.

A farmer was tried at Sherman, Texas, for having a gun on Sunday. He proved that he was hunting in the pit—in other words that the gun was without intent to be destroyed, and was acquitted.

The Des Moines News says: "If Bug-Ab-Man-Go-Shing will change his name we will have more confidence in his reformation."

The election of Towne, Ringgold and Lind is now conceded by many Republicans.

Remember that if you do not register tomorrow. Last chance.

THE DAKOTAS.

Grand Forks People Indignant Over the Quality of Street Curbing.

NORTH DAKOTA.—Grand Forks—The coming meeting of the city council is likely to see a very lively debate, the question being, by whom the contractor is supplying.

Much indignation is expressed by the enforcement league in preparing for another raid on the city.

Local manufacturers are on collections, which they state are very bad. The same is true of the lumber trade, which trouble and expense off the once excellent prospects for trade.

Farago—At the residence of Rev. J. S. Root on Saturday evening, Oct. 22, George and Mrs. Marion Bringstrom of St. Paul, Minn., N. D., were married. Mr. Root is one of the business men of New Rockford.

Aten—Late Tuesday night the building occupied by P. B. Martin was riddled with gunshots. He was surprised at running a gambler, who had been a stranger on the charge of maintaining a public house, into his home. His wife, before bound him over to the police, placed him over to the district court, placing the bonds.

David E. Mull will have an exhibition a large number of his paintings. Among these will be his painting, "The Woods," which the society is raising a fund to purchase.

Musical programs will be given every afternoon and evening. There will also be decorated in an artistic manner in keeping with the nature of the exhibition. There will be drapery, rugs, etc.

The exhibition, it is thought, will present mostly oil paintings.

A RUBBER FIGHT.

Officers of the Goodyear Company Resign to Organize an Opposition.

New York, Oct. 28.—A dispute between the Goodyear Rubber company, has temporarily suspended the consumption of the biggest deal in the history of the rubber business in this country. Leo J. Werner, who was the president of the company, has also resigned. He was the man who was the driving force behind the company, and John D. Rodenbach, who was the managing director, has also resigned. The intention of all concerned in this deal is to organize an opposition to the United States Rubber Company, which has millions of money behind the Warwicks family, and the Warwicks, there will be an interesting contest.

It has been suspected that the Warwicks have been quietly hooking the late Joseph Bannister, of Providence, in his right. It is now known that the Warwicks, Whittemore, and others, have stock in the Goodyear, and other companies, and most of his son is also involved in the business of the immense plant of the Thomson Woods in New York. The Warwicks, which has been in business for several years, is now owned by John D. Rodenbach, who will be the driving force behind the new opposition.

SENTIMENT DIVIDED.

Some Think Dreyfus Guilty, Others That He Is Innocent.

Paris, Oct. 28.—The newspapers here are sharply divided into camps, one of them highly praising M. Baud's report to the court of Cassation, as clearly settling the truth and proving the innocence of Dreyfus, and the other insisting that the report was merely a pleading in favor of the prisoner.

ALL WERE DROWNED

Entire Crew of the Steamer L. R. Doty Perished In Lake Michigan.

SEVENTEEN IN ALL

Schooner St. Peter Sunk and All on Board But One Drowned.

Chicago, Oct. 28.—The loss of the steamer L. R. Doty, with her entire crew, during the gale of Tuesday, is now conceded. Wreckage brought here has been fully identified by Capt. Ellison, of the steamer George Williams, which belongs to the same line, as having come from the Doty. The Olive Jeannette, which the Doty had in tow, was towed into Chicago today. Her crew confirmed the loss of the steamer.

The steamer L. R. Doty was owned by the Cuyahoga Transit company of this city. She carried a crew of sixteen men. Following is a list of the members of the steamer's crew: Christopher Smith, captain; Henry Shantz, first mate; W. J. Hodge, second mate; Thomas Abernathy, engineer; C. W. Odette, second engineer; George Wadsworth, bosun; steward; W. J. Scott, cook; Charles Brown, watchman; Peter G. Peterson, wheelman; Albert Nelson, assistant wheelman; Joseph H. Howe, deck hand; E. Purnell, deck hand; E. Purnell, deck hand; William E. Howe, deck hand; E. Purnell, deck hand.

The steamer had been on the lake Oct. 8, when she was cast adrift. It is possible that one or two changes have been made since that time.

The steward lived at Bay City, Mich., and the first mate at Detroit. It is not known where the other members of the crew were born, as they were all born at West Bay City, Mich., in 1882. Her capacity was 1,700 net tons. She was 29 feet long and 41 feet beam. Her insurance valuation was \$100,000.

COMPARES FIGURES

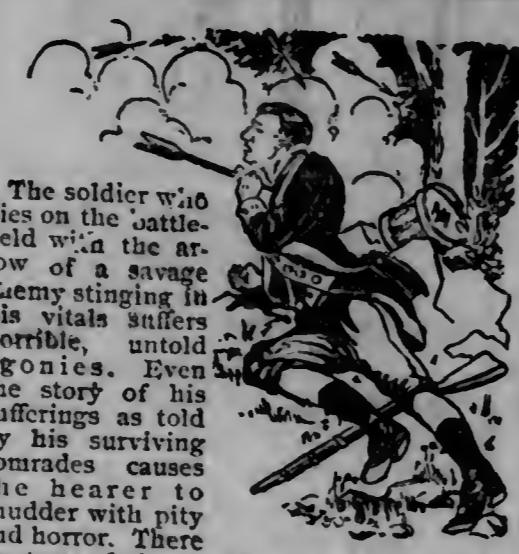

Only 40,000 Men Were Killed
In Battles of the
Rebellion.

Chicago, Oct. 29.—Commissioner of Pensions George Evans, who is in the city shopping at the Great Store, says he estimates that up to Sept. 30 the war with Spain had caused the loss of the lives of 2000 American soldiers and sailors. He further declared that the statistics he has before him show that the percentage of deaths on the camp, from disease during last summer was much less than during the civil war.

Commissioner Evans was asked for further particulars and spoke as follows: "The number of men killed, \$6,000,000, were killed in battle and 30,000 perished in camps and hospitals. The official figures which I have recently completed covering a period from May 1 to Sept. 30 in the war with Spain, show that 2000 men were killed in the war with Spain. This is the number lost in the battles of the rebellion. At San Juan the loss was 22 men. This is an average. At Corinto one thousand was lost. At Santiago Cuban soldiers sixty-one men have died."

The total number of American soldiers who have died in camps from disease are estimated at 2000. This is remarkable in view of the terrible climatic conditions, and it fully vindicates the contention that disease kills more men than battle.

DAWES REPORT

Necessity of Providing School
Funds For White Children
Pointed Out.

INDIANS ALL RIGHT

But No Provision For Educa-
tion of White Children
In Territory.

Washington, Oct. 29.—The annual report of the Dawes Indian commission, bringing the work of that body in reorganizing Indian territory up to date of early this week, was made public to-day. It urges as the main call for government aid, "brought with disastrous consequences if delayed," the need of some provision by the national government for educational purposes in the territory. While the funds and resources of the several tribes, properly managed, can probably supply sufficient support for the schools of the citizen Indians, yet the white residents cannot share in them and must look elsewhere for the result of the use of this great medicine. It is the discovery of an eminent and skillful Dr. R. V. Pierce, for the Indian Medical Hospital and Surgical Institute at Butte.

According to Dr. Pierce, advice given to the suffering physician whom his townsmen honored him to resign that he stick to the sick and let the world have another all letters from sufferers with our cure." His "Great Medical Discovery" is sold all over the world.

San Francisco, Oct. 29.—The French bark *Duchesse Anne* has arrived in port from Hong Kong. The crew, who came from the federal and state quarantines, launches out to the vessel and soon the news came back to port that there had been two deaths on board during the voyage. Captain, master of the ship, the first to succumb to the dread disease, died on Aug. 29. Nearly a month afterwards Sailor Miller was stricken with the disease and died at sea. The bark was ordered into quarantine.

Share of Lawyer's Fees.

Cleveland, Oct. 29.—As a result of a story which has been circulated during the past two or three days to the effect that Judge F. A. Dellafield of the common pleas court had received half of the \$100,000,000, is purchased, thus giving the lawyer a 50 per cent. interest in that company, its organization being the same as in the case of the American Tobacco company purchases from that company, and it is asserted concerning the former, the American company, that it is the business of manufacturing plus tobacco.

While some of the concerns acquired may be continued and the smoking tobacco and will continue to do a large amount of business in these lines is concerned, the other, the cigar and cigarette companies will be the manufacturers of tobacco.

Vernon Burke is the instigator of these stories, he and Lamson of this court have been in contact with the press and were given publicity. It will merely say that the story is not true, and that the most malicious lie.

John Dellafield, attorney and a well-known attorney, he was the leader in the fight against the election of M. A. Hart for United States senator.

The new company will issue \$20,000,000 of preferred stock, 5 per cent. non-cumulative stock, and \$20,000,000 of common stock, manufacturers accept in payment for their shares of common and preferred stock to the amount of \$10,000,000 to be raised for making certain improvements and providing additional working capacity.

WAR AFTERMATH.

The recent wholesale emigration of intelligent Jaimanians to the Island of Cuba has caused a protest from the American authorities. The Jaimanians, a group of Americans, and the Spanish authorities issued a memorandum quoting the American authorities and warning British subjects to proceed to Cuba without adequate means of defense.

Gen. Blasco has been instructed by the minister of war, Gen. Correa, to make arrangements for the defense of Cuba in the sum of \$25.

The American Tobacco company, the United States Sugar company, and the tobacco companies of the United States have rented a 3-story building at the corner of Havana and Sampierdo street. The trade companies will open bank immediately.

The Cuban man, who has been ill since his arrival in Savannah, is much improved and received a number of callers yesterday. The man has a light form of typhoid fever. Dr. Bryan says he is not in much danger to recover from the disease here from Nebraska and she will not come to the United States.

According to reports from the sessions, assembles in Santa Cruz del Sur, Gen. Cuellar, general of the army, permanent chairman of the organization. Gen. M. A. Hart is expected here today. It appears that the Cuban government, the secretary of state that his name must be given to the new president of the Free Silver-Prohibition party candidate for governor. After the fusion convention of the Radicals and the Liberal party substituted his name for that of a John Steeves, who has been charged with murder in the trial court and entered a plea of not guilty. The Radicals will gain mostly from the Nationalists.

Marshal Martinez Campos, after an prolonged conference with the minister of justice, has agreed to accept the command of the Tercio-Politico. It is understood that he will be appointed to the command of the Tercio-Politico. The Tercio-Politico, which is the name of the Spanish army, is not regarded as a settlement of that place which is in dispute between Great Britain and France.

THE DAKOTAS.

A Fargo Elopement Concerns
a Woman of Unhappy Matri-
monial Experience.

NORTH DAKOTA.

Fargo—Mrs. George Van Kleeck closed Wednesday night with C. T. Kennedy, who has been a shooting gallery here this summer. Both were married and are supposed to be the man's family. The husband of the woman is an honest, hard-working man and he has the sympathy of the people. Mrs. Van Kleeck has had a rather varied and unusual career. Her first marriage, married when she was scarcely more than a child, man was not a happy one. Some months after her separation he committed suicide, and a year later she married George Van Kleeck.

Charles, for years employed around Fargo livery barns, impersonated George Van Kleeck on Wednesday night to two strangers who had been staying in the city. Next Monday he will be mustered in at Ellendale, and with the other companies at Hillsboro and Grand Forks, the company he has enlisted with, will be mustered up to twelve companies.

He is from Philadelphia with his daughter, who is a nurse. Early in the summer her son came out to the city and she has been here ever since. Later he made another trip and left with his wife and child.

Laward Young of the Webber family, to whom he was married, but she refused. Sult was brought up as a boy as he was over age. The case was lost. Young was found to have accumulated some property which he was unable to have given by prominent citizens of Pennsylvania authorities may be asked to look into the case.

Engineer George Kingsley has just completed his travels in the North, from St. Paul, Minn., and the branches. Mr. Miller, his wife, and two sons, are now home and popular and efficient. He will be at St. Paul Saturday.

Miss Darling has returned from another Alaskan trip and will remain in Fargo until the gold mine is ready.

The testimony in the case against H. F. Miller, of the United States court was concluded Thursday night after a long argument and has been carried out to the residents of any other territory, and will be attended with the most disastrous consequences. The man is believed to have between \$300,000 and \$300,000,000 in real estate in the United States but not an acre of land or other property beyond that in public use.

The white residents are to receive any acre from the United States it must be from the outside and by direct application. It appears that the Cuban government, the secretary of state that his name must be given to the new president of the Free Silver-Prohibition party candidate for governor. After the fusion convention of the Radicals and the Liberal party substituted his name for that of a John Steeves, who has been charged with murder in the trial court and entered a plea of not guilty. The Radicals will gain mostly from the Nationalists.

Marshal Martinez Campos, after an prolonged conference with the minister of justice, has agreed to accept the command of the Tercio-Politico. It is understood that he will be appointed to the command of the Tercio-Politico, the name of the Spanish army, is not regarded as a settlement of that place which is in dispute between Great Britain and France.

Robbed the Grave.

A series of incidents of which Mr. John Oliver, of Philadelphia, is the subject, is narrated by him as follows: "I was in a most dreadful condition. The organization of the supreme court had something to take the place would doubtless be considered necessary."

At Oswego, N. Y., the Tonawanda River Boiler and Engine works were destroyed by fire.

William Loford was dashed to pieces by the flywheel of an engine at Granger, Ind., Saturday night.

FICKLE AUTUMN DAYS.

No Danger in Them if Warner's Safe Cure
Is Used.

A chill air and a lowering sky in the morning, a sudden rush of heat in the middle of the afternoon, then a cutting wind after sunset—such is the history of an autumn day in the north temperate zone. This is the weather that threatens not only the avowed Indians, but many who fancy themselves stronger than they are. It strikes them in the back. It stops the free action of the kidneys.

Then come feelings of cold, headache, nervousness, and worst of all, grinding cutting rheumatism which may last for years, defying common remedies, ointments, liniments, etc. The worst of diseases begin in the kidneys, and in the fickle autumn weather the seeds of danger are sown. Avoid the saddest consequences of those uncertain days. Strengthen your kidneys with Warner's Safe Cure.

P. W. Lewis, of Clyde, Ohio, writes:

"I had been confined to the house for months with scatic rheumatism, not able to get into or out of bed without help, and despaired of ever being able to walk again. A friend advised me to take Warner's Safe Cure. I told him I had been lame so long I had no hopes of getting well. But a drowning man will grasp at a straw, so I sent for two bottles, and when I had taken them I walked to my barn, with the aid of two canes.

"I got more Warner's Safe Cure, and it served the scatic rheumatism as Admiral Dewey served the Spanish at Manila. It also knocked my old enemy, kidney trouble, out of my system. I was soon able to dispense with my canes and go about my business."

The connection between the Indians and the rheumatism was probably obvious to Mr. Lewis, but it may not be to everybody who reads the story of his cure. Instead of taking dead tissue from the blood and hurriedly touches the heart; then it kills like lightning.

There is no hope for the rheumatic unless he attend to his kidneys and, by making them sound and strong, rid his system of the enemy. There is more than hope; there is certainty of renewed health in Warner's Safe Cure. Can any fay-minded man, or woman doubt this, after reading Mr. Lewis' letter?

recovery. The diseased kidneys, sluggish and incompetent, act like a dam. In such a case, with every beat of the heart, the blood is laden with a substance as truly poison as arsenic or strichene. But it is a lingering poison, except when the rheumatism touches the heart; then it kills like lightning.

A DANGEROUS MEASURE.

In a recent speech at West Duluth Judge Morris said that he is in favor of the McCleary bill, one of the most vicious measures ever introduced in Congress, inasmuch as it attacks the money of people and contemplates the financial slavery of the masses. What the result of the passage of such a law would be admirably summarized by the Indianapolis Standard follows:

1. Retire \$346,000,000 of greenbacks. 2. Stop coinage of silver dollars. 3. Make \$500,000,000 of silver redeemable in gold.

4. Make debt contracts, public and private, payable in gold.

5. Turn over to banks all power to issue paper currency.

6. Secure bank currency by assets only.

7. Leave depositors without protection.

8. Enable banks to contract or expand their currency at will.

9. Create a bank monopoly.

10. Leave honest banks at the mercy of dishonest ones.

11. Make legitimate banking hazardous.

12. Increase the value of our debt obligations national and private, many hundred million dollars.

13. Open an avenue for wild-cat banking.

14. Provide a 12-year board to control currency.

15. "Make money the master; every thing else the servant."

Although this mischievous measure is on the house calendar, the Republican speakers are not saying a word about it. They decline to discuss it. This is part of the program to secure the passage of the bill without giving the people a chance to protest. As silver was secretly demonetized in 1873 without the question being previously discussed and submitted to the vote of the people, so another effort is being made to stealthily strike a blow at the people's money without their knowledge. Not long ago the Bankers' Magazine expressed the hope that when this bill comes up for consideration in Congress "it will go through without being made a political issue." And this is why the Republican orators are not discussing it on the stump. Mr. McCleary spoke here recently for two hours on the money question, but did not even mention this bill which bears his name.

Page Morris has said he favors the bill, and yet he does not discuss its provisions, and when the character of the measure is thoroughly learned it is not astonishing that he fears the result of its discussion.

All Republican congressmen are not in favor of it, but those opposed are few in number, and some will likely follow the decision of the party caucus, Congressman Walker, the Republican

chairman of the house banking and currency committee, says: "If the Hill-Fowler bill (otherwise known as the McCleary bill) becomes a law it will create a panic, compared with which the panic of 1873 was a moving zephyr to a Kansas cyclone."

And yet Page Morris says he favors this measure.

Again, Chairman Walker says: "The bill is carefully drawn in the interests of business, and is intended in speculation in bonds as much as in the interests of banks faithfully serving their business customers. . . . This bill would not have gotten out of the committee if it had not been so drawn as to meet the wishes of those determined that no bill should be reported that did not, first of all, protect this bond privilege of the banks, and this to the sacrifice of the legitimate commercial bank and of the advantages of a true bank currency." Mr. Walker also says "the bill is very bad economy." It would result in "one great bank with 10,000 branches. No independent local bank, managed by its citizens, can be established in the town, and if one is there it must go out of business."

Again, Page Morris says such a bill has heavy support.

On the other hand, Mr. Towne stands opposed to the bill and pledged to work and vote against it.

Can any man hesitate as to what his duty is as between the two candidates?

WHAT THEY TELL THE FARMERS.

While Page Morris and the News Tribune and the agents and brokers of the pine land syndicates are trying to persuade the voters of St. Louis, Carlton and adjoining counties that the \$2 duty on lumber has been the means of increasing the wages of the workers in the mills and the woods, as well as raising the price of lumber, it is noticeable that out in the farming districts the Republican speakers and newspapers are singing a different song. The claim made by Mr. Morris is that the Dingley tariff has raised the price of lumber and not given good campaign material with the farmers and other men who are consumers of lumber. For this reason the Republican organs in the western end of the district are trying to persuade the farmers that the increased price of lumber is not due to the \$2 duty levied by the Dingley tariff law, but is due to another cause altogether.

The Todd County Argus, which is of

the McCleary bill, will be remembered, placed white pine lumber on the free list. Thus it will be seen that in Todd county the supporters of Mr. Morris are claiming that the \$2 duty did not affect the price of lumber, and consequently had nothing to do with raising the wages of the lumberjacks and the sawmill workers.

This completely upsets the claims made by Page Morris in his speeches at West Duluth, Carlton, Aitkin and other points in the lumber counties that he was instrumental in securing legislation that raised the wages of all connected with the lumber industry. It is now in order for him to renege his claim with the statement of the Akeley Lumber company, and the plan he has laid up in his defense by his Todd county friends.

After they have discovered where they are at, and have agreed upon one story, The Herald will have occasion to again refer to the subject.

WILL GOVERNOR COUGH DO IT?

The Duluth Post is the only Swedish paper in Minnesota that is supporting the Republican ticket, and it frankly says that it is doing so because of the offices in sight. Referring to the Swedish-Americans who are supporting Lind, Towne and the rest of the fusion ticket, the Posten says: "If we desire to see men of Swedish nationality fill important offices, will not this policy or lack of policy become suicidal to our party?"

The Posten says this, assuming that the Republicans will be able to fill the offices, and that therefore those of Swedish nationality who desire offices will not be able to get them if they vote against the Republican candidates.

Voting for the fusion ticket would be "suicidal to our aspirations," says the Posten. Of course it would. Is not Dr. Ekholm, the owner of the Posten, a Republi- can candidate for coroner? Has he not held that office for eight years, and does he not want it for another term? Of course it would be suicidal to his aspirations if all the Swedish-Americans in Duluth should vote the greater will the Democratic vote of the whole Fourteenth regiment.

WILL GOVERNOR COUGH DO IT?

The decision to keep the Fourteenth regiment waiting in St. Paul for two or three weeks to be mustered out will prevent them from exercising their right to vote on Nov. 8. This will be an outrageous and utterly defenseless action, and it is not surprising that the soldiers are indignant and disgusted by the prospect.

A PERFECT BAKING POWDER.

The constantly increasing demand for Dr. Price's Cream Baking Powder, the standard cream of tartar powder for forty years, is due to two causes.

FIRST:—The extreme care exercised by the manufacturers to make it pure, uniform in quality and of highest leavening power. Skilled chemists test every ingredient as to purity and strength.

SECOND:—Recent State investigations show that the majority of other baking powders contain alum, and consumers are giving such powders a wide berth. Nothing is left to chance in the manufacture of

Dr. Price's Cream Baking Powder

It is pronounced by all authorities as free from alum or other adulterant. It never disappoints. Each can is like the other. The **BEST** is **ALWAYS** the **CHEAPEST**.

Ayer's Hair Vigor

"I have sold Ayer's Hair Vigor for the past thirteen years and have known of no case where it has failed to give satisfaction. I sell more of it than any like preparation."

J. P. BRISCOE, Harrison, Ark.

"For five years I have been selling Ayer's Hair Vigor under a positive guarantee that it would produce hair on a bald head and restore gray hair to its natural color. I have not had one bottle returned, nor has there been a single case where the dressing was used that it did not do all that was claimed for it."

H. M. ACUFF, Elba, Va.

Removes Dandruff

"For some years my hair had been coming out. It had become very dry, and my scalp was covered with dandruff. I have applied Ayer's Hair Vigor regularly for some weeks, and I could hardly trust my senses when I first found that a new growth of hair had started. It is much thicker than formerly and of good color. The dandruff has disappeared, and my scalp seems to be in a perfectly healthy condition."

Miss R. WRIGHT, Peter, Ont.

"Some time ago my head became full of dandruff, which caused me great annoyance; after a time the hair began to fall out. The use of Ayer's Hair Vigor stopped the hair from falling and made the scalp clean and healthy."

Mrs. C. M. AYRES, Mount Airy, Ga.

Restores to Gray Hair its Original Color

"I think there is no toilet article in the world so good as Ayer's Hair Vigor. I am fifty-three years old, and my hair would have been all white now if it were not for the use of the Vigor; but the application of that dressing has preserved its color; it kept it soft and glossy."

"After five years' use of Ayer's Hair Vigor, I can cheerfully recommend it as a desirable toilet article. It keeps the hair soft and glossy and helps it to retain its natural color."

D. WARNER, Dunnville, Ont.

Makes Hair Grow

"For about five years my hair kept falling out, until it was almost bald. Some New Hampshire friends asked me to try Ayer's Hair Vigor, and insisted on getting it for me. I used it during that summer and fall, and found that a new growth of hair had started. I continued to use it steadily for about four months, and at the end of that time had as good a head of hair as one could desire."

HOWARD MELVIN, Carlisle, Mass.

"I am well pleased with Ayer's Hair Vigor. When I noticed that my hair was getting thin I commenced to use the Vigor, with the result that the hair not only ceased to come out, but a new growth of hair started. It certainly is an excellent tonic."

CHAS. C. GRAVES, Brookton, N. Y.

Your druggist sells Ayer's Hair Vigor: \$1.00 a bottle; six bottles for \$5.00.

CAUGHT A TARTAR

Mrs. Czegota Gives Officers Webber and Donovan a Warm Time.

SHE DROVE THEM OUT

Went at Them With a Broom and They Fleed Precipitately.

Paul Czegota, of Thirtieth avenue west and Ninth street, who is accused by Herman Albrecht, a neighbor, of cutting down the latter's fence and making a driveway over his backyard, was arraigned before Judge Edison this morning on the charge of trespass, to which Czegota pleaded not guilty. The hearing was set for Nov. 1, and the accused was released on his own recognizance.

Officer Al Wehber and Detective Donvan had an interesting interview with Mrs. Czegota this afternoon at the house where investigating the night. Wehber opened the parley in German. It was not the right kind of talk, as Mrs. Czegota spoke English. Wehber tried to make communication easy in the woman's son as interpreter, but with the opening sentence of Wehber's German, Mrs. Czegota translated, "You've grabbed the huckster," meaning the name of the neck and threw him half way across the room to show what she thought of it. She then raised her broom and advanced on the officers. Donovan, who was in the rear, retreated across the steps backward, making his escape but Wehber did not succeed in getting out of range. Mrs. Czegota aimed a blow at his head, Wehber ducking and receiving the blow on his hand. The two then got hold of each other again. Wehber was across the street with his oven. The two held a council of war and decided that if they were going to get Czegota they would have to catch him in his home. They rounded him up to the Plaster coal dock last evening about 7:30 o'clock.

Wehber has a badly swollen hand to day.

THE NEEDLEWORK GUILD.

Annual Round Up to Be Held Next Week.

The Duluth branch of the Needlework Guild of America addresses the following to the ladies of Duluth:

As the time draws near for the annual "round up" of the Duluth branch of the "Needlework guild" it has been thought best to call the attention of the garment members and others who may be interested in the work of the guild.

The "Needlework Guild" of America (incorporated) was organized in Philadelphia in 1893. It has

branches in many of the states, south, east and west. It is one of the greatest ideas that has been put into practice. The cost of the annual round up is so little for anyone to give two garments, but when 100 people each give two what an array we have.

Then the system is simple. If any one feels that she can take a little time and ask others to contribute to the good work, if each contributing two garments and contributing money (no amount specified) are retained herself, she thereby becomes a director. If any one feels she can do more, she can take ten people besides herself who will act as directors and send all their garments to her the second week in November, she will be elected a director and the attorney for the petitioners and Towne & Merchant for the assignee.

On the third week of November, the week of the "round up" will be held.

On Monday and Tuesday the collection process will be seen throughout the place changing a portion of which will be announced later. On Wednesday the section presidents will meet to elect the officers and the election will at that time consider the names of those in from all the charitable institutions of the city for garments. On Thursday the names will be displayed for the citizens to see them. On Friday and Saturday they will be sent out to their destinations if you have never thought of the work before, and if you cannot do a little. Do not wait to be invited to join, but make your contribution to any one of the officers.

On Saturday the 2nd of November the "round up" will be held and the auditor will be present to audit the accounts.

TALK OF POLITICIANS

Republican Leaders Not Very Certain About
Morris Being Elected But They Are
Making Extravagant Claims.

Duluth's Volunteers Will Probably Not Be
Home In Time to Vote and There
Is Much Indignation.

This has been a busy week with the candidates. They have been everywhere. They travel singly, in pairs and in small groups. Combinations without number have been effected, the French vote, the Polish vote, the Hungarian vote, the Austrian vote, the German vote, the Italian vote, the Irish vote and the Afro-American vote, all have been fixed. If the talk of the politicians is to be believed, the prophecies have settled in their own minds just what the majorities will be and they know which candidates will run ahead of their tickets and which ones will be beaten. In general results the knowing ones do not seem to be in agreement. The Republicans, who are, rule, claim everything in sight, admit that it is not certain that the county ticket will be successful. One of the candidates informed The Herald that it was a foregone conclusion that the ticket of the Republicans, for auditor and J. B. Middlecoff was a beaten man the day he was nominated for judge of probate.

Since the formation of the Morris organization, he has been making the most extravagant claims. That is the reason everyone who would listen to them say that the "war congressmen" would be elected to the house on not less than 300,000 and that the Republicans, in this time the returns were all in. In this way they have endeavored to bolster up the confidence of the public and to turn to renewed activity, hoping at the same time to dampen the ardor of the opposition. The working man who has been traveling over the district and who is supposed to be familiar with the situation in the several counties on his return from a recent trip, volunteered to the Herald that the Republicans also well informed, that Mr. Morris would have a majority of 3500 at the very least. The statement of his men requested to give him figures by which he would be able to do and when the figures were figured up on his own estimate the 3500 was doubled to 6000. Then he was requested to explain where his estimated Morris majority were coming from in certain towns and he voluntarily advised his original estimate of one and the number of another until he had cut off his estimate of 6000 down to 400. The second Republican then made a few further revisions on his estimate and convinced the first that the chances were that even this might be more than wiped out and a good balance left on the other side. The working men, who are seldom to be relied on, especially when made by a partisan, is also said to disbelieve them generally and when in a district large area of Sixth a working Republican counts on a margin of only a few hundred it may be said that the outlook is anything but rosy from his standpoint.

During the week two newspaper men from the Twin Cities, who have been making a tour of the Sixth district. One represents a Republican and the other a Democrat. They have called on the chairman of the various committees in nearly every county, have listened to the claims of both sides and have given a situation from every possible standpoint.

weighing the chances fairly arrived at the same conclusion and that was that unless there was a marked change between now and election, the election of Charles A. Towne was assured. This

one who visits the government building between now and election.

The Republicans profess to feed greatly on the success of the unexpectedly light registration in the city of Duluth. They conclude that, because the vote will be small, the fusion movement will be easily broken and lessened. Admitting this to be true, it is evident that a fact the vote in the Republican strongholds on the ranges will also be less than it was two years ago, the falling off being larger in proportion than there is in Duluth. So it would appear that the light vote will not be the injury to the Republicans than to the fusionists in this country.

The Duluth regiment, or what has gone to St. Paul to be mustered out.

It is said that the mustering out

is not yet ready, and that it will

require a few weeks to get it ready.

This means that the young men of Duluth who volunteered their services to fight for the country in this country are not to have an opportunity to do so in the coming election. There is a well-grounded belief that this delay is intended to give the young men the knowledge that a very large majority of the enlisted men are fusionists. The boys feel very disgruntled at the prospect and are not likely to be satisfied with the conditions. Yesterday a prominent Republican, one who is taking an active part in the campaign, talked with a member of Congress and informed him that he did not believe the regiment would be mustered out until after election. He said in conclusion that the men who are to be mustered out will be mustered in again, and that the men who are to be mustered out will be mustered in again.

It is true that he did not say this but it is to be published.

It is no room for doubt that he actually expressed that opinion notwithstanding his statement to the contrary.

He has a disposition to do what the Minnesota state government has offered, will interfere to prevent this outrage from being practiced upon them.

There are many evidences that indicate that the Republican leaders are not as confident of electing Mr. Morris as they would like the public believe. Senator Knobell, who is personally well acquainted with the young men of Duluth who volunteered their services to fight for the country in this country are not to have an opportunity to do so in the coming election. There is a well-grounded belief that this delay is intended to give the young men the knowledge that a very large majority of the enlisted men are fusionists. The boys feel very disgruntled at the prospect and are not likely to be satisfied with the conditions. Yesterday a prominent Republican, one who is taking an active part in the campaign, talked with a member of Congress and informed him that he did not believe the regiment would be mustered out until after election. It is no room for doubt that he actually expressed that opinion notwithstanding his statement to the contrary.

He has a disposition to do what the Minnesota state government has offered, will interfere to prevent this outrage from being practiced upon them.

Charles L. Lewis is Duluth's candidate for the office of the supreme court. He is the first man from this city that is said to be to be elected by his own party. He is a man of Northern Minnesota and should represent this state in the election of the legislature.

He is a man of the people.

OF DULUTH'S NEIGHBORS

TOWER TOPICS.

Tower, Oct. 29.—(Special to The Herald)—Dr. S. Grant, geologist of the University of Minnesota, accompanied by his son, William, Capt. Arthur E. Peck, Mr. Hoffman and George Moulton left Monday for a geological tour of the state. He will be absent for several weeks.

Mr. N. C. Ladd, of Two Harbors, spent Sunday in the city, and will take his summer.

While the steamer Old Fellow was crossing the big bay of Lake Vermilion Monday evening with a score load of cord wood, the two long poles on the line, Ely should follow Duluth's example, probably, such alarm being answered, as he did.

Thursday, Ely was visited by a small steamer, which was from early morning and a strong wind blew in with it, which was a drop in the bucket.

The Oliver Iron Mining company is making a large residence at the Savoy mine in Carlton, and the steamer Templeton will be there Saturday.

Ely has been overrun with candidates of all kinds and denominations during the past week. There are probably a dozen here now.

E. L. Hayes and son, John, are inspecting the stock of lumber and hardware from the Howe Lumber company.

A. G. Kingston went to Duluth Tuesday morning for several days.

Mr. and Mrs. E. C. Farnum are up from Duluth, having been cycling on the way to township 64-15, to look over some timber.

Capt. M. Cundie went to Ely Tuesday evening on a business trip.

John C. Cundie, who is spending a few days at Duluth, is a candidate for register of deeds, who is in the city Wednesday.

W. H. Exton, general manager of Senator Bissell's campaign, was in the city several days this week on business.

Samuel C. Smith, of St. Paul, has homesteaded in 64-15.

G. L. Hamblen and C. D. Corbin, of Chicago, are here, the former having been here for a two weeks deer hunt at Superior.

William H. Gardner, of Belding, Mich., is in the city for a few days.

**America Will Pay All That
Were Incurred For Actual
Improvements.**

Paris, Oct. 31.—The American commissioners have presented to the Spanish commissioners a written expression of the purpose of the United States to take the entire group of the Philippine islands and to assume such proportion of the Philippine debt as has been spent for the benefit of the islands or their inhabitants in public works, improvements and general betterments.

It was also set forth that the United States would not assume any part of the Philippine debt which had been incurred by Spain for the furtherance of military or naval operations to quell insurrections.

The session was adjourned until Friday, in order to prepare the Spaniards to receive a reply.

The session today lasted a little over an hour.

The American peace commissioners, each carrying a portfolio containing records and personal memoranda, at their headquarters in the Continental hotel for the meeting with the Spanish commissioners, at the beginning of shortly before 2 o'clock this afternoon, the president of the Spanish commission, Senor Montero Ilos, whose health on one side was poor, was preparing as to threaten an indefinite adjournment of the sessions of the commissions, had informed the extent of enabling him to remain to the 3rd meeting. He arrived at the foreign office in a citizens' dress with his colleagues shortly after the adjournment of the meeting place.

Shortly after 2 o'clock the two commissioners confronted each other across the table on which, in 1783, Benjamin Franklin and his colleagues signed the treaty of independence of the United States.

WHY IS ELECTRIC LIGHT BEST?

Because it is Healthy, Clean, Pure and Brilliant.

HEALTHY! It has no odor. Prof. Thompson states one cubic foot of gas consumes as much oxygen as four adults. It causes no discolorations of furnishings and decorations in houses.

CLEAN! As electric light is care in turning off lights when not in use it is cheaper than any other illuminant.

SAFE! As electric light is care in turning off lights when not in use it is cheaper than any other illuminant.

CHEAP! By using a little care in turning off lights when not in use it is cheaper than any other illuminant.

DROWNED NEAR ELY

**Two Men Lose Their Lives In
Burntside Lake—Boat
Capsized.**

John R. West, of Ely, and E. C. Hamen, of Superior, were drowned in Burntside lake, near Ely, yesterday by the capsizing of a boat. Martin Patterson and John D. Morrissey, of Superior, were also in the boat, and were saved. West's body was recovered yesterday, and a party headed by Capt. Pengelly was searching for Hamen's body last night.

The boat was capsized while some of the party were trying to haul in a large fish, it was stated. Mr. Patterson had been drowned after he had been taken from Capt. Pengelly was received stating that Mr. Patterson was safe.

A special train left Superior for Ely at 11 o'clock last night, having Capt. Board Mrs. Martin Patterson, Mrs. F. C. Hamen, Mrs. J. D. Morrissey, Miss Clara Thayer, Byron Patterson and Ralph C. Patterson.

Mr. Patterson is a prominent mine owner and Mr. Morrissey is agent at Superior. The boat, a small one, was capsized almost to helplessness by the cold water. Their condition was such as to require immediate medical aid.

Mr. Hamen was a druggist at 287 West Fifth street, Superior. Mr. West was formerly in the register of dealers of Superior. Mr. Patterson's interests had been in charge of Mr. Patterson's interests at Ely. Mr. West and Mr. Hamen were married to nieces of Mr. Patterson. The party were guests of Mr. Patterson at Superior.

INDIAN POLITICS

In the East More Corrupt Than That of the Whites.

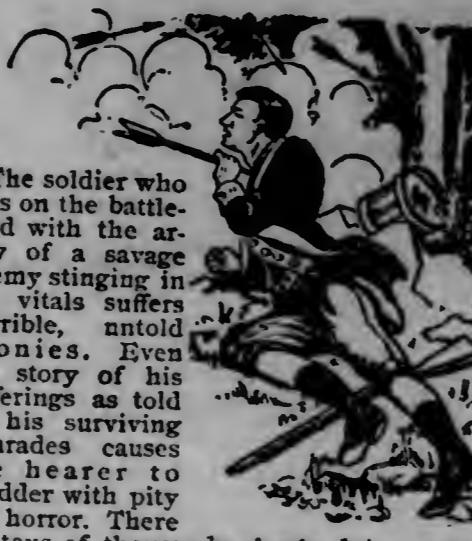

A VERY LAZY TRIBE

Lemhi Agency Indians as Degraded and Ungrateful as Can Be Found.

Washington, Oct. 31.—The majority of the annual reports of the Indian agents to the commissioners of Indian affairs are of an encouraging nature, and indicate progress generally along civilized lines. But in the reports, however, are not so general as to make some surprising statements. Unusually in an annual report is the following arrangement in the report of E. M. Yerian, in charge of the Lemhi agency in Idaho:

"These Indians, as a tribe, are honest and peaceful and kindly disposed, but are about as degraded and ungrateful as any Indians. Their houses are huts and like simple children want things as their wants, and their conduct, mode of living and barbaric practices are such that under concessions have been made to the agents. While some will avail themselves of the opportunity of earning their living by civilized pursuits, others lead a lazy, vagabond life."

"They are addicted to gambling, horse racing and dancing, and the Indians are not inclined to operate to the disadvantage of the tribe. Their real advancement has not been what it should, or what it possibly can be. It is more likely that she will follow the course that would lead Esquimalt with a small fleet of destroyers and two torpedo boats.

FRANCE RECEDES

Fashoda Question Will Be Settled By Recall of Maj. Marchand.

EGYPTIAN QUESTION

Other Nations Besides France Are Interested In Its Final Solution.

Paris, Oct. 31.—The *Éclat* today says it has received reliable authority that the Fashoda question will be settled favorably to Great Britain by the recall of Maj. Marchand. France, the paper adds, yields all, reserving only the question of the right to the Dahl-ghazal district, which she does not consider as belonging to Egypt.

Continuing the *Éclat* remarks: "M. Delcasse, however, has now decided to raise the whole Egyptian question, which should have been done from the first and thus avoid the humiliation of yielding to the British ultimatum. When the question is thus enlarged, France will not be alone in its discussions with the government of Salisbury. Egypt interests are the principal interest of Germany, and the party which has promised to recognize him, resists that position that he ought give his word to the sick and afflicted. He will personally answer all letters from sufferers with the same frankness as the *Medical Society* is sold by all good medicine dealers. Stomach and liver troubles with sluggish action of the bowels are cured by Doctor Pierce's Pleasant Pellets.

BOLD BOND SCHEME.

American Syndicate Expects to Reap Rich Harvest on Philippine Securities.

Washington, Oct. 31.—The confident prediction of Secretary Hay and Secretary Alger that the peace negotiations at Paris will be brought to a successful conclusion within the next three weeks are not shared by all members of the cabinet.

Secretary Wilson, for instance, believes that the Spanish commissioners will sign the peace treaty, and that Sagard will call them home, leaving to the agency the only alternative—to use force in compelling the Filipinos.

Secretary Hay and Secretary Alger, however, are more in the confidence of the president than the secretary of state.

They understand better the complexities of the big deal between the administration and the holder of Philippines, who, while Sagard is to be induced to call all the Filipinos to a meeting in the combine. The combination is to be established by the legal talent in the country, and it is claimed the trust law will not be violated. The combination represents about 60 per cent of the entire production of common stoneware in the United States. The trust has already advanced the market price a half cent a gallon.

MORRIS CLAIMS REFUTED.

Page Morris and his political managers have been claiming that the wages of all employed in the lumber industry have been raised by the \$2 duty on white pine lumber and therefore these men should vote for his return to congress.

With the duty on lumber only \$1, under the McKinley tariff law, the wages of the lumber companies' employees were higher than they are now. The employees say so. Consequently the \$1 duty favored by Mr. Towne would have been better for the employees, if the claim of the Morris shouters is correct.

But, according to one of the leading leading lumber companies in Minnesota, the \$2 duty has nothing to do with raising the price of lumber and therefore has not caused any increase in the wages of those employed in the woods or sawmills. The H. C. Akeley Lumber company of Minneapolis, one of the largest concerns in the business, wrote as follows to a Todd county man:

"Within the last year the price of lumber has advanced, as you state, about \$1 per 1000, but we do not feel that this advance has been caused directly by the Dingley bill. We think it was caused by an improvement all along the line in different branches of business."

Commenting on the above, the Todd County Argus, a Morris organ, says:

"Lumber began to advance last year before the Dingley bill was passed, because of the increased demand, and would most likely be as high as it is today had the Wilson bill remained in force."

The Wilson bill placed lumber on the free list. Therefore, according to the statements of a prominent lumber company and a leading Morris organ, the lumber duty of \$2 has not raised the price of lumber or increased the wages of lumber employees.

CONSTITUTIONAL AMENDMENTS.

There are four proposed amendments to the state constitution to be voted upon at the election next week. They are as follows:

1. An amendment to section 1 of article 14, providing that a majority vote of all the electors present and voting at any election shall be sufficient to carry any proposed amendment. This is simply to make clearer the present language of the constitution.

2. An amendment to section 35, article 4, allowing cities and villages to frame their own charters, commonly designated as the "home rule amendment." At present the charter commission is appointed for life, but the proposed amendment provides that its tenure of office shall be six years. It also directs the commission to submit amendments to the charter when petitioned by 5 per cent of the voters, and it broadens the classification of cities by population.

3. An amendment to article 9, providing for the establishment of a state

road and bridge fund and the appointment of a state highway commission. This is in the interest of good roads.

4. An amendment to section 8, article 7, granting to women the right to vote for library boards and making them eligible for such offices.

These amendments will no doubt all be adopted. There is no good reason for opposing any one of them.

TOWNE WILL CAREY EVERY WARD.

The campaign has reached the stage when the News Tribune can always be counted upon to make a big bluff of some kind. Inasmuch as the outlook is so dismal this year for the candidates who are suffering from its support, it was expected that its bluff would be on a greater scale than ever. The expectation was well founded. The bluff appeared this morning in the shape of an editorial claiming "the whole earth" so far as Page Morris is concerned. The right registration it claims, has blasted Mr. Towne's hopes and therefore, it asserts that Page Morris will carry the city.

It is most likely that the News Tribune will wage 1 cent on this claim. It is nothing but a bluff, designed to create the impression in other counties that Mr. Towne will not make as good a showing in the vote in Duluth as he did two years ago. Neither the facts nor the figures sustain this homely claim.

The registration is much lighter than that of two years ago and the vote will be correspondingly less. But Mr. Towne will not suffer any more severely on this account than will Mr. Morris. Indeed The Herald has good reason to believe that in the West End, a greater percentage of those now registered favor Mr. Towne, as compared with the percentage which he received of the total vote cast there two years ago. Take the registration in each ward of the city separately and compare it with the percentage of those who are in the party of Mr. Towne.

The registration is the consequence over the mayor's veto of its bill, and it is needless to say that they were Republicans.

The street railway company, the electric company, the gas company, the water company, who were most responsible for the ordinance, were easily beaten by Mr. Towne.

A STATE TARIFF

Special Taxation of Foreign Corporations Pronounced Constitutional.

THE SUPREME COURT

Insurance Must Be Paid Where Death Occurs Outside Traveling Zone.

Washington, Oct. 31.—The United States supreme court today announced its decision sustaining the constitutionality of that feature of the tax laws of New York which lays a tax on foreign corporations doing business in the state according to the capital employed. The case was instituted against James F. Roberts, comptroller of the state of New York, to test the law and to enjoin an assessment made on the capital of a large foreign insurance company having a branch in New York city.

The lower court sustained the validity of the law, and the supreme court now affirms this decision. Judge Davis in announcing the court's opinion said the law was settled that a state may impose a tax on the capital of a foreign corporation doing business within its limits as it may judge expedient, and that it may make the grant depend upon what it may make of a specific license tax, or a surcharge on the amount of the tax paid to the state. This was not, the court held, an infringement against products of outside states.

Justice Harlan announced the decision in the name of Justice Brown. He said the former held that the court had been uniform against states which favored domestic firms, corporations or persons or against those from other states. He held up the system of special taxes on these out-of-state bodies, then would in the aggregate amount to a system of protective tariff system, overruling the freedom of trade between the states.

Chief Justice Fuller announced the court's decision affirming the judgment of the supreme court of New York in the case of the St. Louis Mining and Milling company against the Montana Mining company, involving rights in mining claims.

The case of the Knights Templar and Masons of Denver, the company against C. E. Converse involved to some extent that clause in mining insurance policies as to the freedom of travel of the parties involved. Payment on an insurance policy was made on the ground that death had resulted while the insured was traveling outside the limits allowed by the policy. The court of appeals of the state of Colorado decided in favor of the beneficiary under the policy, and the company appealed to the supreme court for a writ of certiorari. The decision too, denied the application for the writ.

A rehearing was granted in the case of the United States against East E. C. Cee, involving certain ranch claims. The court, in the independent church of the church, in upon the statement that Justice Harlan, while attorney general, had directed that his office's case through his assistants and had participated in the hearing and determination of the case.

MUCH MIXED TICKET.

The Entanglement Which Colorado's Ballot Laws To.

Denver, Oct. 31.—The weekly allowed by the law for making changes in the state tickets expired at midnight. The middle-of-the-road Populists will have no state ticket, the court deciding at the last moment that the party, as no standing. There are ten state tickets, but only four candidates for governor, Charles S. Thomas, Democrat, head of the Democratic People's party; Teller, Silver Rep., and the Populists and Liberty Union tickets; Harry R. Wadsworth, the Republican, Silver Rep., and the Populists; and Western Republican tickets. The two candidates for governor are Robert H. Smith, Prohibitionist, and Nixon Elliott, Socialist.

Through the decision of the courts in regard to enjoining the Teller Silver Republican candidates for the legislature, the Populists in this and several other counties of the state will be under the emblem of the other two. Silver Republican party which has fused with the Republicans on the state ticket. This fact will cause many Silver Republicans to vote the straight Republican ticket.

Garfield's Indian Inspector on the Bear Island Affair.

Cleveland, Oct. 31.—At the weekly meeting today of the congressional ministers of Chicago, C. H. Howard, formerly inspector under President Garfield, addressed the conference at some length on the Bear Island in the Northwest. The Speaker attempted to get the Indians of Leech Lake for their recent outbreak, saying that the government had been at war with them, and that the United States should have been there in the habit of distributing whisky among the Indians and then arresting them for drinking it. The Indians, he said, after being arrested, had thirty to 100 miles from their homes for trial, the fees derived from the arrest and conviction of an Indian were about \$20.

Gen. Howard said that individual Indians, in the habit of starting fires on the property of the Indians and as a result of this, the Indians charged timber at a reduced price while it was really as valuable as their own.

UPPER MICHIGAN.

L'Anse.—The Nestor estate has been in operation on the Sturgeon for three years, and has a mill at 100 feet of logs already skinned. The mill at present will run as long as the weather permits.

Portage Lake.—The Nestor estate is situated in the upper part of the Bay of Portage Lake, and is the largest lumber camp on the Huron River. The Bay closed last week for the winter, and the logs will be towed to the mouth of the Huron River.

George Bowen, who fought Standard Oil at Camp Alger the past three months, is now a member of the management of the Western Union telephone company, and is a member of Company 3, Thirty-fourth Michigan volunteers, will visit friends in the state.

Houghton.—The past week has devolved nothing of interest, except an exploratory work conducted at the Allouez mill.

Portage Lake.—The Nestor estate is situated in the upper part of the Bay of Portage Lake, and is the largest lumber camp on the Huron River.

John E. Davies and others will address the meeting.

THEY HELD THE TRAIN

Colored Troops at Knoxville Refuse to Allow Train to Proceed.

THEY WANTED FOOD

Complained to Bystanders That the Train Was Not Properly Equipped.

Knoxville, Tenn., Oct. 31.—There was quite a disturbance at the railroad station here about midnight last night, a battalion of the Tenth colored cavalry was passing through on its way from the Philadelphia to Atlanta to headquarters at Huntsville, Ala., and at this point they refused to allow the train to proceed under the orders of the railroad authorities. The officers of the battalion left the train at Knoxville to get something to eat with instructions to the men to remain until it left the station until their return. The railroad officials wanted to move the train before the officers returned, but the soldiers would not permit it.

This followed on the little news of the value of the Kearsarge to the railroad authorities, who were on the entire length of the property, and the train, occasionally ran into poor rock, a hole, yet the average speed was 40 miles, without the least trouble. At the present time the Tenth is in a greater percentage.

John Stanton, of New York, president of the Mohawk, has been busy of late of business, and the company has been up to a system of special taxes on these out-of-state bodies, then would in the aggregate amount to a sum of protective tariff system, overruling the freedom of trade between the states.

Chief Justice Fuller announced the decision in the name of Justice Brown. He said the former held that the court had been uniform against states which favored domestic firms, corporations or persons or against those from other states. He held up the system of special taxes on these out-of-state bodies, then would in the aggregate amount to a sum of protective tariff system, overruling the freedom of trade between the states.
